

Version 1.2 Revision Date 01.07.2021 SDS Number 30000003706 Print Date 05.03.2022

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND THE COMPANY/UNDERTAKING

Identification of the

: AIR, MEDICAL

substance/preparation

: Medical Air

Use of the Substance/Mixture

Other means of identification

: Medical Applications.

Restrictions on Use

: No data available.

Manufacturer/Importer/Distribu

: Air Products Singapore Industrial Gases Pte. Ltd.

2 International Business Park

The Strategy, #03-20 Singapore 609930

Toll Free No: 800 448 1755

Email Address - Technical

Information

: GASTECH@airproducts.com

Telephone : 6332 2440

Emergency telephone number : +65 6853 6800

(24h) +1 610 481 7711 International

### 2. HAZARDS IDENTIFICATION

GHS classification

Gases under pressure -Compressed gas.

GHS label elements

Hazard pictograms/symbols

Signal Word: Warning

**Hazard Statements:** 

H280:Contains gas under pressure; may explode if heated.

Other hazards which do not result in classification

High pressure gas.

Version 1.2 Revision Date 01.07.2021 SDS Number 30000003706 Print Date 05.03.2022

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture : Substance

| Components | Chemical formula | CAS Number | Concentration  |
|------------|------------------|------------|----------------|
|            |                  |            | (Volume)       |
| Oxygen     | O2               | 7782-44-7  | 20.4% - 21.4 % |
| Nitrogen   | N2               | 7727-37-9  | 78.6% - 79.6 % |

Concentration is nominal. For the exact product composition, please refer to technical specifications.

### 4. FIRST AID MEASURES

Eye contact : In case of direct contact with eyes, seek medical advice.

Skin contact : Adverse effects not expected from this product.

Ingestion : Ingestion is not considered a potential route of exposure.

Inhalation : Adverse effects not expected from this product.

Notes to physician

**Treatment** : If exposed or concerned: Get medical attention/advice.

### 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media : The product itself does not burn.

Use extinguishing media appropriate for surrounding fire.

Extinguishing media which must not be used for safety

reasons.

Specific hazards

: Do not use water jet to extinguish.

: Can support combustion. Upon exposure to intense heat or flame, cylinder will vent rapidly and or rupture violently. Move away from container and cool with water from a protected position. If possible, stop flow of product. Keep adjacent cylinders cool by spraying with large amounts of water until the fire burns itself

out.

Special protective equipment

for fire-fighters

: Standard protective clothing and equipment (Self Contained Breathing

Apparatus) for fire fighters. Standard EN 469 - Protective clothing for firefighters.

Standard - EN 659: Protective gloves for firefighters.

### 6. ACCIDENTAL RELEASE MEASURES

Personal precautions : Ventilate the area.

**Environmental precautions** : Prevent further leakage or spillage if safe to do so.

Methods for cleaning up : Ventilate the area.

Additional advice : If possible, stop flow of product. If leak is from cylinder or cylinder valve, call the

emergency telephone number. If the leak is in the user's system, close the

SDS Number 30000003706 Print Date 05.03.2022

cylinder valve and safely vent the pressure before attempting repairs.

### 7. HANDLING AND STORAGE

### Handling

Cylinders should be stored upright with valve protection cap in place and firmly secured to prevent falling or being knocked over. Use equipment rated for cylinder pressure. Protect cylinders from physical damage; do not drag, roll, slide or drop. Do not allow storage area temperature to exceed 50°C (122°F). Only experienced and properly instructed persons should handle compressed gases/cryogenic liquids. Before using the product, determine its identity by reading the label. Know and understand the properties and hazards of the product before use. When doubt exists as to the correct handling procedure for a particular gas, contact the supplier. Do not remove or deface labels provided by the supplier for the identification of the cylinder contents. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. Use an adjustable strap wrench to remove over-tight or rusted caps. Before connecting the container, check the complete gas system for suitability, particularly for pressure rating and materials. Before connecting the container for use, ensure that back feed from the system into the container is prevented. Ensure the complete gas system is compatible for pressure rating and materials of construction. Ensure the complete gas system has been checked for leaks before use. Employ suitable pressure regulating devices on all containers when the gas is being emitted to systems with lower pressure rating than that of the container. Never insert an object (e.g. wrench, screwdriver, pry bar, etc.) into valve cap openings. Doing so may damage valve, causing a leak to occur. Open valve slowly. If user experiences any difficulty operating cylinder valve discontinue use and contact supplier. Close container valve after each use and when empty, even if still connected to equipment. Never attempt to repair or modify container valves or safety relief devices. Damaged valves should be reported immediately to the supplier. Close valve after each use and when empty. Replace outlet caps or plugs and container caps as soon as container is disconnected from equipment. Do not subject containers to abnormal mechanical shock. Never attempt to lift a cylinder by its valve protection cap or guard. Do not use containers as rollers or supports or for any other purpose than to contain the gas as supplied. Never strike an arc on a compressed gas cylinder or make a cylinder a part of an electrical circuit. Do not smoke while handling product or cylinders. Never re-compress a gas or a gas mixture without first consulting the supplier. Never attempt to transfer gases from one cylinder/container to another. Always use backflow protective device in piping. When returning cylinder install valve outlet cap or plug leak tight. Never use direct flame or electrical heating devices to raise the pressure of a container. Containers should not be subjected to temperatures above 50°C (122°F).

### Storage

Containers should be stored in a purpose build compound which should be well ventilated, preferably in the open air. Full containers should be stored so that oldest stock is used first. Observe all regulations and local requirements regarding storage of containers. Protect containers stored in the open against rusting and extremes of weather. Containers should not be stored in conditions likely to encourage corrosion. Containers should be stored in the vertical position and properly secured to prevent toppling. The container valves should be tightly closed and where appropriate valve outlets should be capped or plugged. Container valve guards or caps should be in place. Keep containers tightly closed in a cool, well-ventilated place. Store containers in location free from fire risk and away from sources of heat and ignition. Full and empty cylinders should be segregated. Do not allow storage temperature to exceed 50°C (122°F). Return empty containers in a timely manner.

### Technical measures/Precautions

Containers should be segregated in the storage area according to the various categories (e.g. flammable, toxic, etc.) and in accordance whit local regulations.

### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Version 1.2 Revision Date 01.07.2021 SDS Number 300000003706 Print Date 05.03.2022

Personal protective equipment

Hand protection : Wear work gloves when handling gas containers.

Standard EN 388 - Protective gloves against mechanical risk.

Eye protection : Safety glasses recommended when handling cylinders.

Standard EN 166 - Personal eye-protection.

Skin and body protection : Safety shoes are recommended when handling cylinders.

Standard EN ISO 20345 - Personal protective equipment - Safety footwear.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Compressed gas. Colorless gas

Odor : None.

Odor threshold : No data available.

pH : Not applicable.

Melting point/range : -357 °F (-216 °C)

Boiling point/range : -318 °F (-194.3 °C)

Flash point : Not applicable.

Evaporation rate : Not applicable.

Flammability (solid, gas) : Refer to product classification in Section 2

Upper/lower

explosion/flammability limit

: No data available.

Vapor pressure : Not applicable.

Water solubility : Not known, but considered to have low solubility.

Relative vapor density : 1 (air = 1)

Relative density : No data available.

Partition coefficient:

n-octanol/water [log Kow]

: Not applicable.

Auto-ignition temperature : No data available.

Decomposition temperature : No data available.

Viscosity : Not applicable.

Version 1.2 Revision Date 01.07.2021 SDS Number 30000003706 Print Date 05.03.2022

Molecular Weight : 28.96 g/mol

Density : 0.081 lb/ft3 (0.0013 g/cm3) at 70 °F (21 °C) Note: (as vapor)

Specific Volume : 12.35 ft3/lb (0.7710 m3/kg) at 70 °F (21 °C)

### 10. STABILITY AND REACTIVITY

Chemical Stability : Stable under normal conditions.

Hazardous decomposition

products

: Under normal conditions of storage and use, hazardous decomposition products

should not be produced.

### 11. TOXICOLOGICAL INFORMATION

Likely routes of exposure

Effects on Eye : In case of direct contact with eyes, seek medical advice.

Effects on Skin : Adverse effects not expected from this product.

Inhalation Effects : No adverse effect.

Ingestion Effects : Ingestion is not considered a potential route of exposure.

Symptoms : No data available.

Acute toxicity

Acute Oral Toxicity : No data is available on the product itself.

Inhalation : No data is available on the product itself.

Acute Dermal Toxicity : No data is available on the product itself.

Serious eye damage/eye

irritation

: No data available.

Sensitization. : No data available.

Chronic toxicity or effects from long term exposures

Carcinogenicity : No data available.

Reproductive toxicity : No data is available on the product itself.

Germ cell mutagenicity : No data is available on the product itself.

Specific target organ systemic : No data available.

Version 1.2 Revision Date 01.07.2021 SDS Number 30000003706 Print Date 05.03.2022

toxicity (single exposure)

Specific target organ systemic : No data available.

toxicity (repeated exposure)

Aspiration hazard : No data available.

### 12. ECOLOGICAL INFORMATION

### **Ecotoxicity effects**

Aquatic toxicity : No data is available on the product itself.

Toxicity to other organisms : No data available.

### Persistence and degradability

Biodegradability : No data is available on the product itself.

Mobility : Because of its high volatility, the product is unlikely to cause ground pollution.

Bioaccumulation : Refer to Section 9 "Partition Coefficient (n-octanol/water)".

### Further information

No ecological damage caused by this product.

### 13. DISPOSAL CONSIDERATIONS

Waste from residues / unused

products

: Return unused product in original cylinder to supplier. Contact supplier if guidance is required. Refer to the EIGA code of practice Doc. 30 "Disposal of Gases", downloadable at http://www.eiga.org for more guidance on suitable disposal methods. List of hazardous waste codes: 16 05 05: Gases in pressure containers other than those mentioned in 16 05 04.

Contaminated packaging : Return cylinder to supplier.

### 14. TRANSPORT INFORMATION

### **ADR**

UN/ID No. : UN1002

Proper shipping name AIR, COMPRESSED

Class or Division **Tunnel Code** : (E) Label(s) 2.2 ADR/RID Hazard ID no. : 20 Marine Pollutant No

IATA

UN/ID No. : UN1002 Proper shipping name : Air, compressed

6/8

Version 1.2 Revision Date 01.07.2021 SDS Number 300000003706 Print Date 05.03.2022

Class or Division : 2.2 Label(s) : 2.2 Marine Pollutant : No

### **IMDG**

UN/ID No. : UN1002

Proper shipping name : AIR, COMPRESSED

Class or Division : 2.2
Label(s) : 2.2
Marine Pollutant : No
Segregation Group : None

### RID

UN/ID No. : UN1002

Proper shipping name : AIR, COMPRESSED

Class or Division : 2 Label(s) : 2.2 Marine Pollutant : No

#### **Further Information**

Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. The transportation information is not intended to convey all specific regulatory data relating to this material. For complete transportation information, contact customer service.

### 15. REGULATORY INFORMATION

Workplace Safety and Health Act & Workplace Safety and Health (General Provisions) Regulations

Workplace Health and Safety Act, SS586 Labeling.

| Country     | Regulatory list | Notification           |
|-------------|-----------------|------------------------|
| USA         | TSCA            | Included on Inventory. |
| EU          | EINECS          | Included on Inventory. |
| Canada      | DSL             | Included on Inventory. |
| Australia   | AICS            | Included on Inventory. |
| Japan       | ENCS            | Included on Inventory. |
| South Korea | ECL             | Included on Inventory. |
| China       | SEPA            | Included on Inventory. |
| Philippines | PICCS           | Included on Inventory. |

### 16. OTHER INFORMATION

Ensure all national/local regulations are observed.
